Our Ingredients Matter

Advanced Plus MSM
with Glucosamine + Chondroitin

Supports Joint Comfort*

Glucosamine:

Glucosamine is key for the formation of cartilage, an essential building block of your joints. Glucosamine also supports the **mobility** and **flexibility** you want in everyday life.*

Chondroitin:

Chondroitin is a building block of cartilage that supports joint **strength** by helping to resist compression in the joint. In the body, Chondroitin functions by attracting fluid to joints to support cushioning and **lubrication**.*

Also With:

Methylsulfonylmethane (MSM):

MSM is important in the formation of collagen in joints, which support the structure of cartilage.*

Calcium Fructoborate (FruiteX-B®):

Clinically tested mineral complex that supports joint **comfort** in as little as 2 weeks.*,1

ULTRA Triple Action
Type II Collagen + Boron + HA

CLINICALLY PROVEN

Type II Collagen:

The same protein found in healthy cartilage, Type-II Collagen works with your immune system to help preserve and maintain cartilage.*

Boron:

This ingredient supports bone health by maintaining healthy levels of Vitamin D, Calcium, and Magnesium.*

Hyaluronic Acid (HA)

The same molecule found in healthy joint fluid, HA has been reported to support lubrication and smooth movement. As we get older, levels of HA tend to decrease.*

1. J Aging Res Clin Pract 2014;3(4):223-228.

‡ Undenatured Type II Collagen has been clinically proven to deliver better joint comfort vs. Glucosamine & Chondroitin.

Movement Keeps Us Connected

Who Is Move Free?

Our scientists started in the fitness community, helping athletes who have experienced joint issues. Then it became obvious it wasn't just athletes who needed our help. Moms, dads, grandparents—all were dealing with similar joint issues. That's when Move Free was born. Today, we constantly look for the right ingredients and combinations to deliver better options for everyone's joint health.

Clinically Proven To Deliver Better Joint Comfort*,‡

We believe in delivering clinically proven benefits to keep people connected to what they love most. We combine innovation and science to create better movement for everyone. Our biggest goal is to push joint health forward, so you can do the same for yourself. We believe when you move, your world gets bigger.

‡Undenatured Type II Collagen has been clinically proven to deliver better joint comfort vs. Glucosamine & Chondroitin.

Our mission and our innovations

Our mission is to combine innovation and science to create better movement for everyone. Our biggest goal is to push joint health forward, so you can do the same for yourself. We believe, when you move, your world gets bigger. So we're here to help you never miss a step and keep you connected to everything that matters. We pair up with experienced partners to analyze varying range of movement—so that we can learn as much as we can to constantly keep science, and you, moving forward.
