## **ASSEMBLY TIPS**

Make sure you understand the following tips before you begin to assemble your golf game.

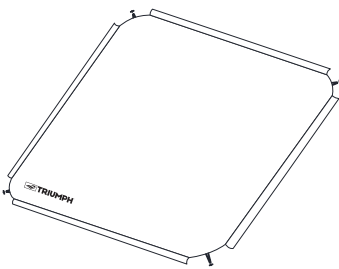

1. Some drawings or images in this manual may not look exactly like your product. Please read and understand the text before starting each assembly step.
2. Assembly can be made both simpler and less timely by first unpacking all parts, and matching and organizing them to the Parts Identifier. This will greatly help you become familiar with the parts before and during assembly.
3. Some of this assembly can be made easier – by placing the parts and building the assembly on a pair of saw horses. A table can be used also as long as the top is well protected from any scratches that could occur. The table or saw horses would need to be structurally strong enough to support this weight.
