

TECHNICAL DATA SHEET

347

Barrier-Tape

For permanent, airtight sealing of vapour barriers in accordance with EnEV and DIN 4108-7.

Properties

- Very high adhesive strength even at low temperatures
- Reinforced PE-film

Area of Use

- For creating permanent, airtight sealing of vapour barriers in accordance with EnEV and DIN 4108-7
- Suitable for all common vapour barriers

Technical Data

- Backing: PE-film
- Adhesive: Acrylic
- Adhesion to Stainless Steel : 13,5 N / 10 mm
- Thickness: 0,30 mm

-40 bis +70°C
