SCE-DF86N40

Product Specifications:

Part Number: SCE-DF86N40
Description: Dead Front, NextGen
Height: 76.50"
Width: 33.00"
Depth: 0.82"
Catalog Page: 183
Est. Ship Weight: 88 lbs

Construction

- 0.075 In. carbon steel.

Application

Designed for use in NextGen Free-Standing Enclosure line.

Dead front panels are designed as a fixed depth panel to be mounted directly behind the existing hinged door. This allows space to mount: gauges, meters and push buttons directly behind the front door making them easily visible when mounting them through the main door is not an option. Dead front panels also provide a barrier against incidental contact with live components during routine monitoring or maintenance of equipment.

Dead front panels are installed by mounting hinges back to back with the existing door hinge of the enclosure and only adding two additional holes on the latching side of the enclosure to mount the latch brackets. Dead Front panels include quarter turn wing knobs for easy entry to the interior and mounting hardware to maintain the environmental rating of the enclosure

Finish

Powder coated white inside and out.

Industry Standards - (IS17)

- NEMA: Not Applicable
- UL: Not Applicable
- CSA: N/A
