Color calibration and printing information. Includes CMYK and RGB color bars.

There are two color bars on this proof and in the art file. One to be used with X-rite D50 Spectrophotometer. The other can be used with most other spectrophotometers. Printers must register one of the two color bars all the way across the width (orange edge) of the press sheets on single runs and production runs. Failure to comply will result in the remaining of film and/or plates at your cost. 数码颜色及设计文件包含了两种颜色条。一种适用于X-rite (德色) D50分光光度计。另一种适用于其它大部分的分光光度计。在打样或者批量生产时，印刷厂必须选择其中一种颜色条并重新添加直到覆盖整张纸的宽度(橙色边)。没有附上上述要求将导致重新出样，出版的稿件将由印刷厂承担。
