- **14" METAL PLATFORM QUEEN BED FRAME:** Boasts a clean silhouette with a black textured finish combined with a subtle design aesthetic that can be dressed up or down and works well in any bedroom or guest room décor
- **CHANGE SHEETS WITH EASE:** Lack of a headboard and footboard will streamline a modern bedroom while also providing the illusion of an open, airy space in a small room and allowing you to tidy the bed and change sheets without any obstacles
- **HIGH-QUALITY CONSTRUCTION:** 19-gauge solid steel reinforced with metal screws construction supports up to 800 lbs. of static weight, and the solid steel slats stay in place to prevent sagging and increase the lifetime of your mattress
- **FELT PADS AND ADHESIVE STRIPS:** Felt pads between the middle rail and support slats reduce noise for a peaceful nights sleep, while adhesive strips prevent your mattress from moving
- **NO BOX SPRING REQUIRED:** Measures 59.375"W x 79.5"D x 14"H with 12.5" of clearance under the frame for convenient underbed storage, and it supports memory foam, latex, or traditional innerspring mattresses with no box spring required
