There are two color bars on the proof and in the art file. One to be used with Kolorit 1 Pro Spectrophotometer. The other can be used with most other spectrophotometers. Printers must repeat one of the two color bars all the way across the width (grasper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaining of film and/or plates at your cost. 印刷版及设计文件包含了两组色标。一组适用于Kolorit 1 Pro分光光度计。另一组适用于其他大部分的分光光度计。在打样或生产时，印刷版必须包含其中一种色标并重复至版宽，否则印刷厂将保留其剩余的版片和/或印版，由此产生的费用将由客户承担。
