Play Tips from the einstein way

Listen Up
What's that sound? Have baby investigate how the maracas rattle and support their cause–and–effect learning. Shake a maraca to make the beads rattle. Then ask baby where the sound came from and point to what made the sound!

Call & Respond
Math is more fun with music! Say a number and shake a maraca 1, 2, or 3 times to help baby learn these counting concepts. As baby grows, ask them to shake the maracas 1, 2, or 3 times, or ask them to count how many times you make the sound!

Touch & Go
Keep baby's fingers engaged while you're out and about! Encourage your child to feel the plush ends of the maracas. Describe the soft texture aloud for baby and encourage them to squeeze the plush! This is a perfect way to keep baby exploring on the go!

Lay Down a Beat
Make rhythm come alive for baby! Show your baby how to make different beats by shaking the maracas fast, then slow. Repeat the beat as you describe it aloud. Then ask them to try to make that beat too! Dance to the music you're creating together!

Scan to watch these play tips in action!

There are two color bars on this proof and in the art file. One to be used with X-rite I1 Pro Spectrophotometer. The other can be used with most other spectrophotometers.
Printers must repeat one of the two color bars all the way across the width (gripper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaking of film and/or plates at your cost.

数码稿以及设计文件包含了两种色带。一种适用于X-rite（爱色丽）I1 Pro 分光光度计，另一种适用于其它大部分的分光光度计。在打样或者批量生产时，印刷厂必须选择其中一种色带并重复添加直到覆盖整张纸的宽度（叼口边）。
没有按照上述要求而导致重新出菲林、出版的费用将由印刷厂承担。
