Play Tips from the einstein way

Add It Up
Let the Ocean Explorers help your child learn to count! Use the colorful cups to teach your child this early math skill. Count the cups as you stack them together. Then count the animal toys! As your child grows, ask them to independently count the cups and toys!

Now Streaming
Teaching cause–and–effect has never been more fun! Hold the Opus the Octopus toy under the water. Then squeeze the toy to see him squirt water! Fill the cups to stream water too. Then ask your child to try! When they squirt and stream water, tell them their actions made it happen!

Rainbow Reef
Learn colors and shapes every time you play! Use the animals and cups to teach baby colors and shapes. Show your baby the shape on each cup and say its name. Name the colors of the cups and animal toys. Extend your child's learning by asking them to match the colors of the cups and toys to those in the book!

Stack the Learning
Build fine motor skills every time you play! Show your child how to stack the cups to build a tower or fill and stream water with the cups. Then ask them to try! As they hold, fill, stack, and pour, they're building important fine motor skills!

Scan to watch these play tips in action!

There are two color bars on this proof and in the art file. One to be used with X-rite I1 Pro Spectrophotometer. The other can be used with most other spectrophotometers.
Printers must repeat one of the two color bars all the way across the width (gripper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaking of film and/or plates at your cost.

数码稿以及设计文件包含了两种色带。一种适用于X-rite（爱色丽）I1 Pro 分光光度计，另一种适用于其它大部分的分光光度计。在打样或者批量生产时，印刷厂必须选择其中一种色带并重复添加直到覆盖整张纸的宽度（叼口边）。
没有按照上述要求而导致重新出菲林、出版的费用将由印刷厂承担。
