Dimensions: N/A var spec

There are two color bars on this proof and in the art file. One to be used with X-rite i1 Pro Spectrophotometer. The other can be used with most other spectrophotometers. Printers must color one of the two color bars all the way across the width (top edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaining of firm industry plates at your cost. 本档输出设计文件包含了两种色条。一种适用于X-rite (爱色丽) i1 Pro 分光光度计，另一种适用于其它大部分的分光光度计。在打样或批量生产时，均须"必须"选择其中一种色条并覆盖全部版面至纸张边缘的宽度。(4号口)。没有按照上述要求打样或批量生产，造成的费用将由印刷厂承担。
