

# Constant Flow Airline Accessories

Each configuration of NIOSH approved equipment is identified by a unique NIOSH approval number. The various configurations are detailed on the NIOSH Approval Label (matrix form). Constant Flow Airline Accessories are included as components of these configurations. These components may be listed by individual part numbers or grouped by acceptable alternative assemblies.

Example:

The NIOSH Approval Insert for the Constant Flow Airline lists model/drawing 7-664-1.

7-664-1	HOSE PVC 8/15/25/50 FT	ALTERNATE HOSE
---------	------------------------	----------------

This drawing, in turn, lists alternate Hose Assemblies which are approved.

Assembly Number	Dimension ft.	Fitting Material
471511	15	Brass
471512	25	Brass
471513	50	Brass
481051	8	Brass
481057	8	Stainless Steel
481058	15	Stainless Steel
481059	25	Stainless Steel
481060	50	Stainless Steel

The Assembly Numbers are listed under “View Part Numbers” on the webpage. Refer to the NIOSH Approval Insert for a listing of approved components.

Breathing Air Distribution System Filtration Boxes are outside the system (configuration) envelope approved by NIOSH. However, they utilize airline fittings to match the fittings approved as components of the Airline Respirator configurations.
