Play Tips from the einstein way

Cozy Story Time
Perfect story times ahead! Sit next to baby as they relax in the chair and detach the book from the toy bar. Point to the pictures and let baby reach out to touch the pages and hear crinkles. Every grasp and touch builds early learning magic!

Touch of Magic
Engage baby's senses with every touch! Use the detachable rattle to gently tap baby's tummy and other body parts. Say "Boop! That's your belly!" Name body parts as you play to build language skills, body awareness, and baby's senses.

Track the Rattle
Get down on your baby's level and shake the rattle toy gently to catch their attention. Move it in a smooth left–to–right arc to help baby practice visual tracking. Watch those little eyes follow the toy or arc of the toy bar!

Little Librarian
Flip the script! Read the book with baby, then ask them to take a turn to "read" it to you! Have your child sit in the chair while you sit on the floor in front of them. Their "reading" may be just silly sounds or simply turning the pages, but it builds self–confidence, and language skills!

There are two color bars on this proof and in the art file. One to be used with X-rite I1 Pro Spectrophotometer. The other can be used with most other spectrophotometers.
Printers must repeat one of the two color bars all the way across the width (gripper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaking of film and/or plates at your cost.

数码稿以及设计文件包含了两种色带。一种适用于X-rite（爱色丽）I1 Pro 分光光度计，另一种适用于其它大部分的分光光度计。在打样或者批量生产时，印刷厂必须选择其中一种色带并重复添加直到覆盖整张纸的宽度（叼口边）。没有按照上述要求而导致重新出菲林、出版的费用将由印刷厂承担。
