Play Tips from the **einstein way**

**Disappearing Act**  
Now you see it, now you don't! At around 6 months, babies learn that what disappears isn't necessarily gone. Reinforce this learning by playing a song and hiding the toy nearby. Ask baby to find it! They'll love the game, and learn the toy is still there even when out of view.

**Go Long**  
Take the long view! At around 6–9 months, babies begin to see greater distances. Help reinforce this development by playing a song with the toy. Then, place the toy across the room. Ask baby to look to find it. When baby sees it, say "Yay, you found it!"

**Rockin' and Rollin'**  
Baby's physical development is on a roll! Encourage your baby to roll front to back by placing them on their tummy and moving the toy so they turn to look at it. As their head turns, use their momentum to gently roll them with your other hand!

**Choose Wisely**  
Help baby build confidence and make choices for themselves by letting them select which song to play. Ask them to play their favorite song and celebrate when they find it by pressing the buttons to hear their jam!

**WARNING:** Design or modifications to this unit not approved by the party responsible for compliance with the user's ability to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

There are two color bars on this proof and in the art file. One to be used with X-rite I1 Pro Spectrophotometer. The other can be used with most other spectrophotometers. Printers must repeat one of the two color bars all the way across the width (gripper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaking of film and/or plates at your cost.

数码稿以及设计文件包含了两种色带。一种适用于X-rite (爱色丽) I1 Pro 分光光度计, 另一种适用于其它大部分的分光光度计。在打样或者批量生产时, 印刷厂必须选择其中一种色带并重复添加直到覆盖整张纸的宽度(叼口边)。没有按照上述要求而导致重新出菲林、出版的费用将由印刷厂承担。
