- DL-6961L-04CL Left Drain Base Kit
- DL-6961R-01CL Right Drain Base Kit
- DL-6961R-04CL Right Drain Base Kit

Unique Product Design Details:

Shower Base Texture

Vision Guidrails

Important Notes:

If this unit is going to be installed in a new construction, please, install all of the required plumbing and drainage before installing the shower. Use a competent and licensed plumber for all plumbing installation period.

Drain not included with this product. The drain opening is 3-3/8" in diameter and accepts a standard 2" compression fitted drain.

The Glass Profiles can be adjusted within the Wall Profiles for overall width or to correct for out-of-plumb conditions within the model size.

Anodized aluminum wall profiles allow up to 1 in. adjustment per side for out-of-plumb (uneven walls).

Upper and lower guide rails can be trimmed up to 4 in. for width adjustment.

Professional installation recommended.

Important Disclaimers:

- Prior to installation, please ensure that the installation surface is finished, level and solid and will be able to support the total weight of the unit. Also, make sure that the walls are plumb. Irregular installation, surface level or out of square conditions can result in serious problems for your installation.
- Please read Installation Manual thoroughly prior to installing this product.
- Please note that you should consult your local building codes with questions on installation compliance standards. Building and plumbing codes may vary by location, and DreamLine® is not responsible for code compliance standards for your project and will not accept any returns.
