The Ingredients and Sourcing Matter To Us

NEUROFACTOR™

SHARP PS®

INGREDIENTS MATTER

- Non-GMO
- Decaffeinated
- Vegetarian

What Is Coffee Cherry Extract?

Coffee cherry extract is a naturally sourced derivative from the whole coffee berry fruit. It comes from the bright red fruit that wraps around coffee beans. This whole fruit extract (Neurofactor™) is clinically proven to increase levels of the vital neuroprotein BDNF, known to strengthen connections between brain cells.*

What Is Phosphatidylserine (PS)?

PS is a premium brain health ingredient derived from natural sources that supports a healthy mind and cognitive function. Phosphatidylserine is a nutrient naturally found in brain cell membranes and is clinically proven to aid neuron health and fuel memory and learning.*

About Our Ingredients

Nootropics are a category of dietary supplements that have been shown to support focus, memory, and learning.* Schiff Nootropic, formulated with a unique blend of coffee cherry extract and PS, provides these benefits.

* THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.

So Step Forward With Us

A History Of Discovery

Trained as a pharmacist in the 1920s, Dr. Eugene Schiff's quest to find natural sources of nutrition led to the birth of Schiff Bio-Foods.

Quality Commitment

Over 80 years later, Eugene's legacy lives on as our time-tested commitment to safety and quality backs all our innovation. We assure all of our products' freshness, purity, and labeled potency.

Carefully-Sourced Ingredients

At Schiff we are passionate about discovering new sources of nutrients and ingredients. Our coffee cherry extract used in Schiff Nootropic is sourced directly from India.

For A Better And Healthier Future

We Care

At Schiff, we value Earth's powerful resources and their potential to support health and well-being. So, we are conscious about using them as responsibly as possible. We want to be honest and transparent with our customers about how we are tracking on our sustainability missions.

Sustainable Packaging

Our first step was to look for more sustainable pack sources, and so our cartons are made from post-consumer recycled natural kraft paper. They are 100% recyclable and 100% compostable.

Recycle With TerraCycle

We are taking great strides to ensure our Schiff packaging has the smallest environmental footprint possible, however we are not there yet with our bottles. We've partnered with TerraCycle to make it easier than ever to recycle. TerraCycle takes hard-to-recycle materials and turns them into new products.

Start collecting any of your health packaging waste. Visit TerraCycle's website, sign up for the Schiff Recycling Program and download free shipping labels. Send them your waste to be recycled!
