## SENTINEL SPECIFICATIONS

# SENTINEL™

COMBINATION LADDER | TYPE IA 300 LBS + IAA 375 LBS | OSHA + ANSI COMPLIANT

**Little  
Giant**  
Ladder Systems

## PRODUCT DESCRIPTION

Sometimes, you need to get closer to the task at-hand than a standard A-frame offers, and that's where the Sentinel™ comes in. The Little Giant® Sentinel combines two ladders—an A-frame and leaning—into one, making it a versatile tool to help you get stuff done with confidence.

**10FT / 12FT**

## 2-in-1 LADDER A-FRAME | LEANING

### 1. ROTATING WALL PAD

It's your job, lean where you want. The rotating wall pad fits inside and outside corners, walls and studs.

### 2. EXTRA-WIDE COMFORT STEPS

At 3.12" wide, the steps on the Sentinel are already comfortable. But the top two steps are where this ladder really shines: a full 6.25" for maximum foot comfort.

Only one Comfort Step is included on IA models

### 3. NON-CONDUCTIVE, HI-VIZ GREEN FIBERGLASS

Our lightweight fiberglass increases visibility and lets you work safely around electricity.

### 4. RAIL LOCKS

Keep rails together while in leaning position, storage and transit.

### 5. GROUND CUE®

Your ankles can rest easy. The Ground Cue makes an audible and tactile "click," letting you know it's safe to step off the ladder. No more missing the final step.

Only available on IAA models

 NON-CONDUCTIVE FIBERGLASS
