The Einstein Way™
Jiggling Janet™ Water Mat
Play Tips

6 Floating ocean shapes

TEACHES

BACK (4x5in)

Push Play
Push, press, & grow! Tell your child to push the floating objects with their finger to move them up, down, or from one side of the mat to the other. This helps little explorers build key fine motor skills and discover cause-and-effect!

Sensational Finds
Help baby get a feel for sensory learning! Encourage your child to explore the textures they experience as they play. Describe the way each floating object feels, and how the water swishes with each press!

Visual Learner
Support baby's visual development! Point to and describe each of the floating objects. Talk about the colors you see and push the animals through the water. Ask baby to watch each shape as it moves!

Deep Dives
Discover the creatures of the deep together! Point to and name Opus the Octopus and Janet the Jellyfish from the Ocean Explorers series to teach baby each animal's name. As baby grows, ask them to point to and name each character too!

Scan to watch these play tips in action!

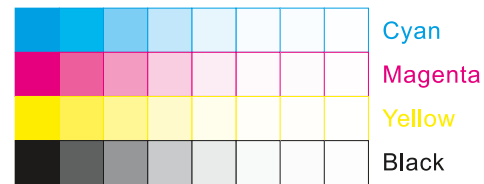

0.3mm Matte White PP

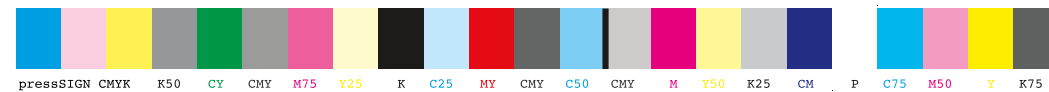

File Name: 17558_PTC020226
Brand: Baby Einstein
Category: Gym/Mats
Product Name: Jiggling Janet
Package Designer: Chelsea A

There are two color bars on this proof and in the art file. One to be used with X-rite I1 Pro Spectrophotometer. The other can be used with most other spectrophotometers. Printers must repeat one of the two color bars all the way across the width (gripper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaking of film and/or plates at your cost. 数码稿以及设计文件包含了两种色带。一种适用于X-rite (爱色丽) I1 Pro 分光光度计, 另一种适用于其它大部分的分光光度计。在打样或者批量生产时, 印刷厂必须选择其中一种色带并重复添加直到覆盖整张纸的宽度(叼口边)。没有按照上述要求而导致重新出菲林、出版的费用将由印刷厂承担。
