There are two color bars on the proof and in the art file. One to be used with Kids2 if PMS Spectrophotometer. The other can be used with most other spectrophotometers. Colors must appear one of the two color bars all the way across the width (upper edge) of the press sheets on output and production runs. Failure to comply will result in the reworking of files and/or plates at your cost. 印刷品上会有两个色条。一个适用于 Kids2 的 PMS 分光光度计，另一个适用于其他大部分的分光光度计。所有印刷或生产批次，印刷时必须确保两个色条均完整且正确地呈现在输出和生产的印张上。否则，将导致文件重做和/或印版重做，费用自理。
