Important Notes

Please note that you should consult your local building codes with questions on installation compliance standards. Building and plumbing codes may vary by location, and DreamLine™ is not responsible for code compliance standards for your project and will not accept any returns on this basis.

This acrylic wall system is specially designed to be installed over any solid surface. If you are installing the acrylic walls over existing tiles, remove and replace all loose tiles before the installation. If you are installing over existing painted walls, remove all loose paint. Sanding the painted surface can help with adhesion.

Please read Installation Manual thoroughly prior to installing this product.

Designed to be installed over backer board, drywall or tile. Not intended for installation on bare studs.

Making cutouts for shower fixtures will not void the warranty, however making cutouts for window openings will void the warranty
