

LEATHER RIGGER

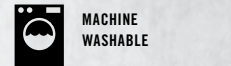

WATER RESISTANT LEATHER HAND PROTECTION

The Durahide™ Leather Rigger is built for those who need a rugged and versatile leather work glove that isn't afraid of water. Our proprietary Durahide™ Leather Technology is water resistant yet breathable, and ready to work with no break-in time. The high abrasion resistant boar leather shell paired with D30® impact padding in the palm reduces hand fatigue and allows this to be the perfect solution for an all-day work glove.

FEATURES

- 1 Water-resistant Durahide™ Leather Technology repels moisture and is ready to work without any break-in time.
- 2 Boar leather shell protects your palm with extreme abrasion resistance.
- 3 2mm D30® palm padding absorbs and dissipates high-impact energy throughout the palm.
- 4 The Gunn cut finger design repositions vulnerable seams for improved durability.
- 5 Comfortable stretch-elastic cuff provides easy on-off flexibility.

INTENDED USES

- Construction
- Oil & Gas
- Mining
- Rigging
