Numbers Game
Math is more fun on the farm! Show baby the numbers in the barn window. Count the numbers aloud for baby. Then extend their learning by counting the dangling toys too! As baby grows, ask them to count the toys or point to the numbers as you say them!

Building Out
The farm is a great spot to build fine motor skills! Ask your child to grasp and hold Donald the Sheep and shake the tractor rattle. Talk about how your child's actions are making the sounds happen! As they explore each toy, they're building fine motor skills and discovering cause-and-effect!

Sensory Delights
Discover the sights and sounds of the farm! Use the toys to make baby's senses sparkle. Shake the tractor rattle, squeeze the crinkly seed packet, and gaze in the mirror together. Talk about what you uncover as you explore together!

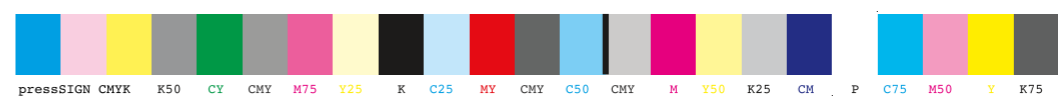

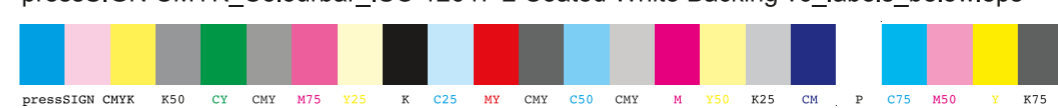

Explore the Farm
Explore the animals of the barnyard! Lift the mat's flap to meet a horse, open the barn window to meet Dean the Dog, and spot more friendly farm critters together using the flash cards. As you see each animal, point to it and say dog, sheep, horse, and more. Bonus points if you can also spot these animals in a Baby Einstein book or show!

There are two color bars on this proof and in the art file. One to be used with X-rite I1 Pro Spectrophotometer. The other can be used with most other spectrophotometers. Printers must repeat one of the two color bars all the way across the width (gripper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaking of film and/or plates at your cost.

数码稿以及设计文件包含了两种色带。一种适用于X-rite (爱色丽) I1 Pro 分光光度计, 另一种适用于其它大部分的分光光度计。在打样或者批量生产时, 印刷厂必须选择其中一种色带并重复添加直到覆盖整张纸的宽度(叼口边)。没有按照上述要求而导致重新出菲林、出版的费用将由印刷厂承担。
