Important Notes:

If this unit is going to be installed in a new construction, please, install all of the required plumbing and drainage before installing the shower. Use a competent and licensed plumber for all plumbing installation period.

Adjustment: This model offers NO adjustment for width or out-of-plumb (uneven walls).

Bases must be installed direct-to-stud; Shower enclosures or doors require finished (tiled) walls.

Professional installation recommended. Please consult the technical drawing for precise drain location.

Important Disclaimers:

- Prior to installation, please ensure that the installation surface is finished, level and solid and will be able to support the total weight of the unit. Also, make sure that the walls are plumb. Irregular installation, surface level or out of square conditions can result in serious problems for your installation.
- Please read Installation Manual thoroughly prior to installing this product.
- Please note that you should consult your local building codes with questions on installation compliance standards. Building and plumbing codes may vary by location, and DreamLine® is not responsible for code compliance standards for your project and will not accept any returns.

The shower enclosure is intended for residential use only. Not suitable for commercial use.
