

# FROM GOOD TO BEST IN ONE SPOONFUL A DAY

**WHY SHOULD YOUR CUSTOMERS ADD  
PET KELP® TO THEIR FUR KIDS' DIETS?  
BECAUSE...**

Kelp is one of the most powerful superfoods on the planet and is sustainably harvested from the icy cold waters of the North Atlantic ocean.

Pet Kelp® formulas are excellent sources of prebiotics and probiotics for good digestive health. Happy gut = happy pup.

Pet parents can help maintain and support their fur kid's skin and coat naturally through vitamins and minerals (there are over 70+ in kelp!), along with beneficial omega 3 fatty acids. Side effects include a happier and better life.

The formulas are Organic\*, limited ingredient and non-GMO for simple goodness!

Pet Kelp® helps sustain energy for long hikes and jumping for frisbees.

Choosing quality kibble, canned or raw diets is just the start of good nutrition. Even the best pet foods can fall short when it comes to aiding skin and coat problems, hip & joint issues and digestive upsets. That's where The Missing Link® Pet Kelp® daily supplements come in.

**The Missing Link® - filling the nutritional gap for almost 30 years.**
