

ORHD®

THERMAL KNIT

CR3A3
NEW! ANSI CUT

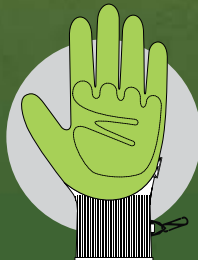

COLD WEATHER IMPACT PROTECTION

The ORHD® Thermal Knit CR5A3 goes to work in cold conditions to keep working hands warm and protected. The heavyweight 10-gauge thermal acrylic liner and extended cuff offers breathable warmth in cold weather conditions. The back of the hand is protected by impact-absorbing Thermoplastic Rubber (TPR) sewn to the user's fingers, knuckles and metacarpals to protect from crushing injuries and extreme abrasion. The ORHD® Thermal Knit also provides critical CE level 3 and ANSI A3 cut resistance to the palm and fingers to reduce the risk of lacerations. The palm is padded and equipped with a textured nitrile coating to restore gripping power in dry, oily and wet conditions.

HEAVYWEIGHT KNIT

10-gauge thermal acrylic liner and extended cuff provide insulation in cold conditions.

CUT RESISTANT

Nitrile coated and padded palm provides CE level 3 and ANSI A3 cut resistance.
