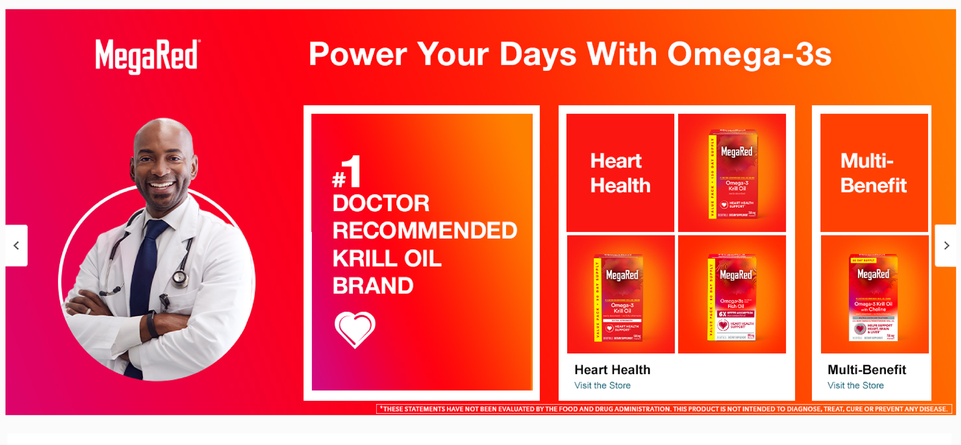
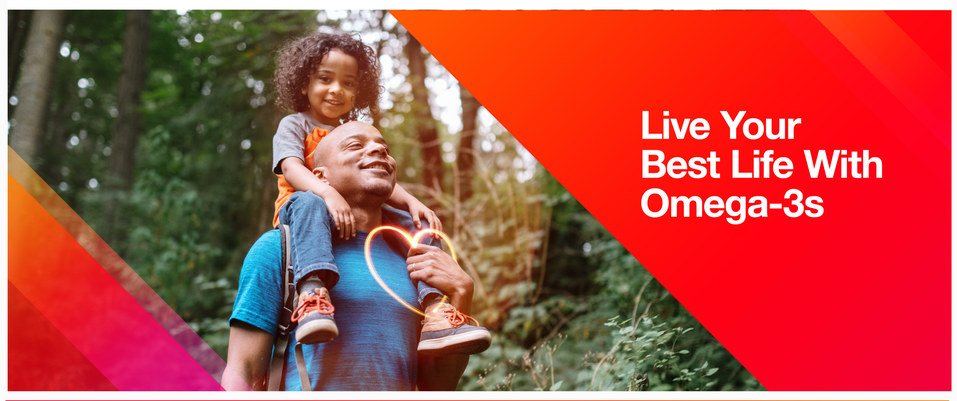
Section 2



Most Americans Don't Get Enough Omega-3s

Omega-3s support cellular function by nourishing cells to keep them in tip-top shape. That's why we've made it our missions to bring more Omegas to more people.



Frequently Asked Questions

Why Are The Softgels Red?

Antarctic krill is rich in the natural antioxidant astaxanthin and is where these softgels get their deep red color.

Is There A Fishy Aftertaste?

No, MegaRed Krill Oil softgels contain Krill Oil, not Fish Oil and have no fishy aftertaste.

How is Krill Oil Different From Fish Oil?

Unlike fish oil, Omega-3 fatty acids in MegaRed Omega-3 Krill Oil are carried in phospholipid form which is easily absorbed by the body.

When Will The Product Expire?

On the back of the label next to the supplement facts you will see "EXP". The date printed there indicates when the product will expire.
