PRODUCT NOT COVERED?

We've got repair solutions that fit.

Bosch provides economical repair services designed to minimize downtime, offering customers a clear and detailed estimate of the necessary work before starting. If repairs are not cost-effective, Bosch will offer a new or reconditioned tool at a discounted price. With a transparent and efficient estimate and repair process, tools are returned to the job quickly and reliably.

OPTION 1 **MaxVantage Program.** **Lowest Cost. Maximum Uptime.**

Skip the wait for an estimate and get your tool repaired or replaced right away — at a price up to, but never above, the published MaxVantage maximum. With no back-and-forth, your repair is prioritized, turnaround is faster, and you're back on the job with confidence. Simply choose **MaxVantage** when you submit your repair online. Free inbound shipping included.

OPTION 2 **Start a Repair.** **Free Estimate. No commitment. Full transparency.**

Prefer to see the cost before deciding? Send in your tool and our technicians will evaluate it and provide a detailed repair estimate. You can approve or decline — it's up to you. Start your repair online and select Free Estimate to get started. Free inbound shipping included.

How to Start. No matter which option you choose, the process is simple:

1

Start a repair online using the QR code.

2

Select either **MaxVantage** or **Free Estimate** when submitting your tool

3

Send it in with the provided free shipping label.
