

20" POWER FEED GEAR HEAD DRILL PRESS

This versatile all gear drive drill press is the right choice for precision drilling applications and continuous industrial use. The gear drive transmission delivers full power at any speed, driving the cutting tools at nearly 100% of the available motor horsepower. Helical ground gears ensure positive, quiet operation and make speed changes fast and easy. The wide speed range makes this the ideal drill for drilling large to small diameter holes fast and easy. Equipped with an all gear drive, mechanical clutch, spindle power feed for consistent feeding of the cutting tool through the workpiece.

STANDARD FEATURES:

- Inch/Metric depth stop
- 2 speed manual forward & reverse switch
- Foot reversing switch
- Head & table rotates 360 degrees around the column
- Machined & t-slotted table
- Quick release drill ejector
- Chuck guard
- No-volt release prevents spindle start up when power returns after shutdown
- 4" Palmgren drill press vise
- Drill chuck & arbor
- Made in Sweden

MODEL: A2608

Item # 9680246 – 230V, 3 PH

Item # 9680247 – 460V, 3 PH

Item	# 9680246	# 9680247
Swing	20"	20"
Spindle Taper	MT3	MT3
Motor	1-1.5 HP, 230V, 3 Ph	1-1.5 HP, 460V, 3 Ph
Capacity Steel	1"	1"
Capacity Cast Iron	1-1/8"	1-1/8"
