

KIMTECH™

Kimtech™ M7 Face Veil

Exceptional breathability
for wearer's comfort

Ultrasonic bond for **higher product integrity**

Constructed of **low-lint polyethylene film**

Kimtech™ M7 Face Veils provide a hygienic alternative to reusable veils for your ISO Class 7 and higher cleanroom environment. They are constructed of low-linting apertured polyethylene film and provide excellent breathability for the wearer's comfort.

The veils are available with either a knitted headband, or with dual snaps for easy adjustment and to

securely attach to cleanroom hoods. They are double bagged and measure 33 cm wide by 38 cm long.

When you require extra face coverage for environments such as those for semiconductors, disk drives, data storage and integrated circuits, the Kimtech™ M7 Face Veils are a good option.

Kimtech™ M7 Face Veil

Dual snaps (shown here)
or knitted headband

33 cm wide by
38 cm long

Silicone and latex free

Key Features

- › A hygienic alternative to reusable veils
- › Styles include a knitted headband, or dual snaps for easy face adjustment
- › Constructed of low-linting apertured polyethylene film
- › Exceptional breathability
- › Double bagged
- › Recommended for ISO Class 7 and higher cleanroom environments

Physical Properties

Fabric Test	Test Method	Result
Particle Filtration Efficiency: PFE (%), @ 0.5µm	ASTM F2299	13%
Differential Pressure, ΔP in mm H ₂ O, @ 8 LPM flow rate	MIL-M-36954C	0.1

Kimtech™ M7 Face Veil				
Code	Head Attachment	Size	Colour	Total/Case
62751	Dual Snaps	38 cm x 33 cm	White	50 veils/bag 3 bags/case = 150 veils
62757	Soft Ties	38 cm x 33 cm	White	50 veils/bag 3 bags/case = 150 veils
