For use on dogs	●		●	
For use on select livestock		●		
All-natural formula			●	

# FLIES DRINK 4 CUPS OF YOUR HORSE'S BLOOD EVERY 10 DAYS<sup>1</sup>

## Don't let them Feast

With each bite, the risk of transmitting disease increases. UltraShield® fly control gives you proven protection that's powerful ammunition in the battle against fly frustration. And with multiple options, you can adjust your protection depending on weather, insect intensity and your horse's activity.

*Find the formula that's right for you*
