

NEW The first and only thrush treatment to combine the natural power of Manuka Honey and MicroSilverBG®

NEW

SILVER HONEY®

RAPID HOOF CARE

Silver Honey® Rapid Hoof Care Thrush Foam delivers powerful, natural antimicrobial action in an innovative expanding foam. Designed to treat and prevent even the most stubborn thrush, the foam fills deep cracks and hoof crevices for thorough, long-lasting coverage. It works without creating any mess or causing staining. The precision straw applicator allows easy, targeted application under pads, around shoes, or on barefoot hooves. Tough on bacteria and fungi but gentle enough for daily use, it's a smarter, more effective solution for total hoof health.

- + The only thrush treatment with Manuka Honey & MicroSilver® BG for powerful, natural antimicrobial relief
- + Expanding foam penetrates deep into frog and hoof crevices for complete, even coverage
- + Straw applicator ensures precise, mess-free application in tight, hard-to-reach areas
- + Fast-acting formula delivers rapid results for both acute treatment and daily prevention
- + Stays in place to actively fight infection without runoff or staining
- + Safe and gentle enough for daily use, yet strong enough for severe thrush cases
