

# TALL BAY LUXURIA™ WITH LUMINOUS LOGS

DIRECT VENT GAS FIREPLACE

TLVX50 | TLVX62

# BUILT TO YOUR VISION. FINISHED IN LUXURY.

The Tall Bay Luxuria™ transforms any room into a centerpiece of style and comfort. Designed for flexibility, it accommodates three-sided, corner, or single-sided installations, empowering designers and homeowners to craft truly bespoke spaces. A soaring 21" double-pane glass viewing area commands attention, while realistic Luminous Logs add depth and life to the fire. With the Tall Bay Luxuria™, every detail exudes elegance, every angle delivers drama, and every moment feels extraordinary.

## CUSTOMIZE

### MEDIA (MUST CHOOSE ONE)

Oak Logs

Birch Logs

Driftwood Logs

## LUMINOUS LOG FLAME TECHNOLOGY

### REFINED REALISM AND SUSTAINABILITY.

Flame movement is built in layers, creating depth and a more lifelike presence within the log set. A modulating ember bed adds a dynamic glow beneath, shifting in intensity to complement the flame above. With adjustable settings for both flame and ember lighting, you can move seamlessly from a soft ambient effect to a richer, more defined fire.

### INCLUDED DECORATIVE PANEL

MIRRO-FLAME™ Porcelain Reflective Panel

## FEATURES

- Customize heat and ambiance with four flame and light settings: high flame, low flame, ember bed lighting and top lighting
- Modulating electric LED ember bed and top light
- Optional left/right corner install kit and ledge kit
- Luminous Logs technology where flames emanate directly from the logs
- Up to 42,000 BTUs
- Warranty: President's Limited Lifetime

## CONTROLS

### eFIRE MOBILE APP

Providing a more connected and convenient experience by controlling every setting right from your mobile device.

### INCLUDED REMOTE:

Enjoy added convenience with the included remote - control the power, heat output and thermostat from the comfort of your couch.

## INNOVATIONS

### MORE EFFICIENT USE OF GAS

The advanced burner offers greater impact and efficiencies (increased flames without added fuel consumption). Napoleon® recognizes the global shift towards environmentally friendly solutions and is dedicated to offering sustainable products and practices.

### DIRECT VENT

Effectively removes exhaust and fumes from your space, keeping your indoor air clean while also conserving energy.

# DESIGNED WITHOUT LIMITS

## ONE FIREPLACE. ENDLESS POSSIBILITIES.

Tailored to the space, the Tall Bay Luxuria integrates seamlessly into single-sided, corner, or bay installations, bringing presence and continuity.

Defining spaces without dividing them, this statement piece becomes a central design element from the ground up.

Three-Sided Bay

Two-Sided (Corner)

One-Sided

# BEAUTY MEETS CONTROL

## DESIGNED FOR COMFORT, WITHOUT COMPROMISE.

Advanced heat management systems allow heat to be redirected away from the fireplace, giving you the freedom to place TVs, artwork, and delicate materials closer to the unit, without sacrificing performance.

### DYNAMIC HEAT CONTROL™ (DHC)

Enhance performance and lower wall temperatures. This system works without a fan for quieter operation and is perfect for situations where heat-sensitive objects, like a wall-mounted TV, need to be placed directly above the fireplace and recessed. It offers the lowest height clearances for TV or artwork installations.

### DYNAMIC HEAT CONTROL™ PLUS (DHC+)

Add this system to your DHC to move the heat to the outdoors.

### DUCTED HEAT MANAGEMENT (DHM)

Offers the greatest amount of flexibility for installations with multiple configurations available, including an option where you can install the fireplace as a room divider and safely pass cables through the wall for ease of electronic installation. Enjoy true zero clearance to combustible materials without fear of heat damage.

### HOT AIR DISTRIBUTION KIT (LHAD)

Efficiently moves warm air from the fireplace to a different room or outdoors using flexible ducting.
