

The first and only combination of natural
Manuka Honey and MicroSilver BG®

SILVER HONEY®

HOT SPOT & WOUND CARE

Reach for fast, antibiotic-free natural healing.

Silver Honey® Hot Spot & Wound Care spray and ointment heal rapidly, provide long-lasting protection and moisturize with formulas that are tough on bacteria and gentle on skin. They treat a range of skin conditions, such as hot spots, dermatitis cuts, abrasions, sores, rashes and lesions.

Proven to stop 99.9% of bacteria immediately to start healing faster

- Soothes skin, helping reduce the desire to bite and scratch
- Stimulates the body's immune response to shed dead tissue
- Promotes growth of new tissue
- Reduces inflammation and helps provide comfort

Natural, medical-grade active ingredients

- Supports healing without disrupting the skin's natural biome
- Prevents licking with bittering agent
- Anti-microbial properties allow for superior healing and aid in protection from infection

SILVER HONEY®

HOT SPOT & WOUND CARE

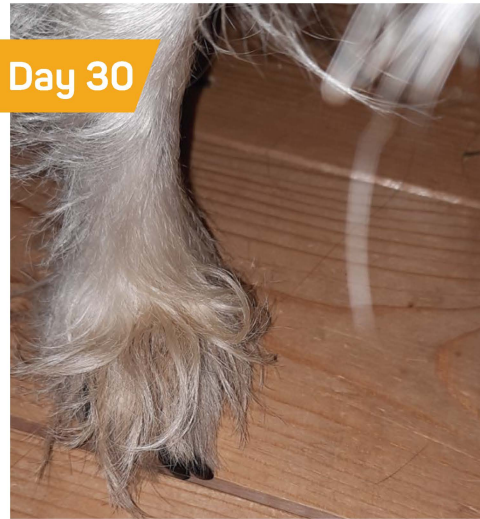

See the impact of Silver Honey® Hot Spot & Wound Care.

Barney is a 16 year old terrier who had a large inoperable benign tumor on his foot, making it painful for him to walk. Barney's owner started applying Silver Honey® Spray Gel daily and within a week it was visibly shrinking. In three weeks, the tumor began to break up, and one month later it was totally gone, the skin was healed, his hair had grown back, and he was back to his happy and active self.

Before

Month-old wound

Day 30

Post-treatment with Silver Honey®

SILVER HONEY®
OINTMENT

SILVER HONEY®
SPRAY GEL

Silver Honey® Ointment is ideal for targeted applications and for treating wounds or skin tissue with long-term scabbing. It is highly effective in softening older, persistent scabs to aid in removal while promoting the healing of the wound beneath.

Silver Honey® Spray Gel is designed to stay in place while providing continuous coverage to the wound. Its touch-free application is ideal for treating large areas of skin.
