

# WOODLAND M-PACT®

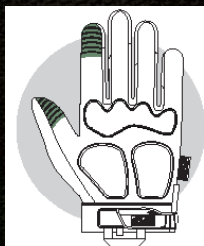

## TACTICAL HAND PROTECTION

The Woodland M-Pact® tactical glove is designed to protect and conceal military and special forces in mountainous regions with varying vegetation. Impact-absorbing Thermoplastic Rubber (TPR) delivers flexible protection in the field against impact injuries and skin abrasions. Our patented Impact Guard™ frees the index finger for smooth trigger guard entry and mobility during hard-charging operations. The dual-layer internal fingertip construction reinforces your thumb and index finger to provide improved abrasion resistance. D30® palm padding absorbs and dissipates high-impact energy through the palm when you're fully engaged so you can maintain your focus.

### NUCKLE GUARD

Impact Guard™ frees the index finger and molded Thermoplastic Rubber (TPR) disperses impact and skin abrasions.

### REINFORCED FINGERTIPS

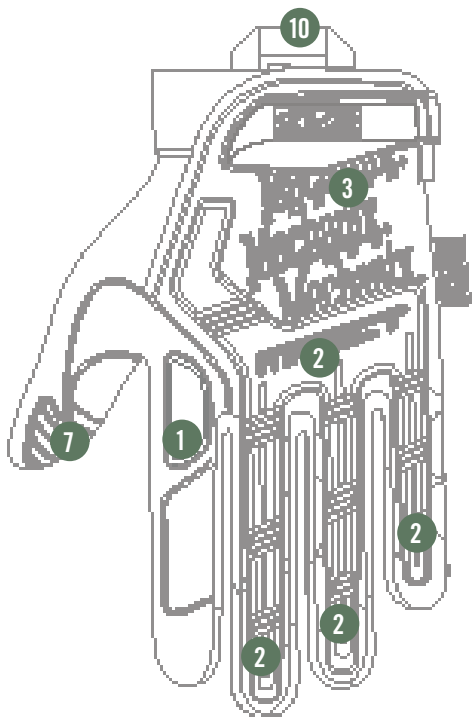

Dual-layer internal fingertip construction reinforces the index finger and thumb.
