Our Ingredients Matter

Why Move Free?
We combine innovation and science to create better movement for everyone. Our biggest goal is to push joint health forward, so you can do the same for yourself. We believe, when you move, your world gets bigger. We're here to help you never miss a step and keep connected to all the things that matter.

When does my product expire?
On the bottom panel of the carton and right-side panel of the label you will see "EXP." The date printed there indicates when the product expires.

What is the difference between Type 1 and Type 2 Collagen?
Type 1 collagen is the most abundant collagen in our body, provides structural support for skin, bones, and tendons. In contrast, type 2 collagen, as in this product, is mainly found in cartilage and is crucial for joint health.
