

RELIABLE ACCESS TO ATTIC SPACE

Built to last and designed for reliable performance, this attic ladder is crafted from lightweight, aircraft-grade aluminum, and delivers long-lasting strength with smooth, easy operation.

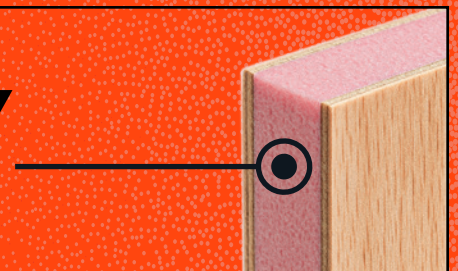

WIDE, NON-SLIP TREADS

CLIMBING HANDLE

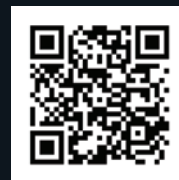

INSULATED FOR EFFICIENCY

Fully enclosed R5 insulation blocks drafts and regulates temperature, boosting energy efficiency while keeping your home comfortable year-round.

HEIGHT ADJUSTABLE. FLOOR FRIENDLY.

Customize the right height during install and keep floors protected with non-marring feet.

SCAN TO SEE IT IN ACTION!

ENGINEERED FOR DURABILITY

Constructed from lightweight, durable aluminum for long-lasting strength. Reliable and built to handle every climb with ease.

LARGE, SECURE CLIMBING HANDLE

Oversized for a comfortable, firm grip while climbing, providing extra stability and control as you safely ascend and descend.

INSULATED FOR EFFICIENCY

Fully enclosed R5 insulation blocks drafts and regulates temperature, boosting energy efficiency while keeping your home comfortable year-round.

EFFORTLESS OPERATION

Smooth, one-handed opening and closing. No struggle, just quick, easy access to your attic with minimal effort.

MAXIMUM SAFETY

Non-slip, wide treads ensure secure footing at every step. Built to reduce the risk of slips and falls when climbing.

EASY INSTALLATION

Simple to mount and ready for use with minimal hassle. Designed to fit most standard attic openings for quick setup.

HEIGHT ADJUSTABLE. FLOOR FRIENDLY.

Customize the right height during install and keep floors protected with non-marring feet.
