

KIMTECH™

Kimtech™ G3 Sterile Latex Gloves

Kimtech™ G3 Sterile Latex Gloves are designed to ensure high levels of contamination control in critical and controlled cleanroom environments. The gloves are suitable for use in regulated EU GMP ISO Class 5 Grade A or higher sterile cleanrooms, and the sterilised latex ensures compliant and seamless protection when and where it counts.

A high-quality finish, with enhanced texturing on the fingertips, provides improved grip, tactile sensitivity and comfort in both wet and dry conditions. The natural rubber latex material is sterilised using gamma radiation validated to a Sterility Assurance Level (SAL) of 10^{-6} , and the gloves feature a high particle cleanliness level.

The hand-specific gloves feature a beaded cuff that provides added strength and makes donning easier, and the gloves are double-bagged to ensure protection and cleanliness. The gloves are also suitable for double-donning, disposable and available in a wide range of sizes.

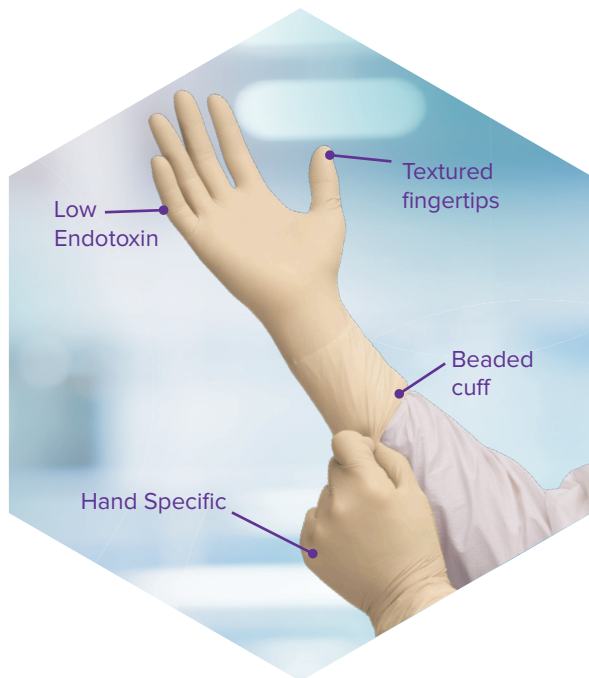

Rigorous product development and testing, combined with proven manufacturing processes, results in latex cleanroom gloves that satisfy many regulatory compliance requirements, and the gloves are provided with all relevant supporting technical information.

- Enhanced tactile sensitivity
- Excellent cleanliness level
- Textured fingertips for enhanced grip

Sterile

compliant
packaging

Kimtech™ G3 Sterile Latex Gloves

Key Features

- › High quality natural rubber latex material provides high levels of protection against micro-organisms and chemical splash
- › Washed repeatedly in ultrapure deionised water resulting in low levels of particles and extractables
- › Beaded cuffs add strength to the gloves, reducing the risk of tearing and increasing their durability, while also reducing roll down for easier donning and doffing

Assured Compliance

- › PPE Cat III according to Regulation (EU) 2016/425 and to the Regulation 2016/425 as brought into UK law and amended
- › EN ISO 374-1 Type C Chemical Splash protection
- › EN 374-4 Resistance to degradation by chemicals
- › EN ISO 374-5 Micro-organism and VIRUS Protection

Quality Standards

- › Manufactured in accordance with Quality System ISO 9001 and ISO 13485
- › Sterility Assurance Level (SAL) 10⁻⁶
- › Certificate of Analysis (CoA) and Certificate of Irradiation (CoI) for each production lot available online at www.kimtech.eu

Packaging Configuration

- › 200 pairs per case = 1 pair per polywallet and pouch; x20 pouch per polybag; x10 polybags per case liner
- › Packaged in ISO Class 5 Cleanroom

Size Guide

Size	Code	Length	Quantity
6.0	56843	30.5 cm	 20 pairs/ bag = 200 pairs
6.5	56844		
7.0	56845		
7.5	56846		
8.0	56847		
8.5	56848		
9.0	56849		
10.0	56842		

Product Specifications

Characteristics	Value								Test method
Freedom from holes	AQL 1.5								EN 374-2, ASTM D5151
Tensile properties	Tensile strength				Ultimate elongation				ASTM D412 ASTM D3578, ASTM D573
	Before aging				880%, nominal				
	After accelerated aging				900%, nominal				
Dimension	Nominal thickness/width								EN 21420 ASTM D3578
	Thickness (mm)	Middle finger		Palm				Cuff	
		0.22		0.20				0.14	
Palm width (mm)	6.0	6.5	7.0	7.5	8.0	8.5	9.0	10.0	
	77	83	89	95	102	108	114	130	
Particles (Maximum)									IEST-RP-CC005
Per cm ² ≥ 0.5 µm	<1500								
Protein (Residual content)									ASTM D6124
µg/g	50								
Endotoxin (Maximum)									LAL Kinetic Tub. Meth.
CFU/pairs	20
