

**COMBINE BASE AND FLY SECTIONS TO CUSTOMIZE LADDER LENGTH
WHILE MAINTAINING SLIM PROFILE FOR TIGHT ACCESS**

**PROUDLY
MADE IN
THE USA**

Crafted right here in the USA, this ladder is manufactured with precision and built to handle the toughest jobs. With quality control at every step, you can trust that your ladder is ready to work. Built by American hands for American strength.

The Little Giant® Underground Utility Access Ladder is built for tight, confined vaults and manholes, with a slim profile that goes where others can't. Interchangeable height sections give you the perfect reach, while your choice of Sure-Set™ spike feet or hoop feet provides rock-solid, slip-resistant footing on any surface — from flat, stable ground to wet, uneven, or rough terrain. Wide, fatigue-fighting rungs and a lightweight yet rigid C-channel frame keep climbs safer and easier.

FITS WHERE OTHERS CAN'T

The slim profile navigates tight underground vaults and confined spaces with ease, so you can focus on the job, not the access.

CONFIGURE YOUR CLIMB

Modular, interchangeable sections make it easy to dial in the right height for every underground application, from shallow vaults to deep trenches.

ENGINEERED FOR COMFORT

Unlike round rungs that dig in, the Utility Access' wide, flat rungs are shaped for the human foot and built to fight fatigue and keep your stance strong.

STRONG FRAME. LIGHT CARRY.

C-channel rails create a stable, rigid frame that give you unwavering stability and lightweight handling for safer, easier climbs.

STABLE NO MATTER WHERE YOU STAND

Sure-Set™ spike feet let you match your grip to the ground. Heavy-duty rubber pads hold firm on flat, stable surfaces, while metal spikes bite into dirt, gravel, and jobsite terrain for max stability.

**NON-CONDUCTIVE
FIBERGLASS**

**TYPE IAA
SUPER DUTY**

Part #	Model	Material	Weight	Foot Type	Length Standalone	Length with 4' Fly	Length with 8' Fly	Storage Width at Base	Duty Rating
18004-272	4' Base	Fiberglass	16.5 lbs	Sure-Set	4' 8"	8' 4"	12' 4"	1' 2"	Type IAA (375 lbs.)
18008-272	8' Base	Fiberglass	20 lbs	Sure-Set	8' 8"	12' 4"	16' 4"	1' 2"	Type IAA (375 lbs.)
18002	12' Base	Fiberglass	23.5 lbs	Hoop Shoe	12' 8"	16' 4"	20' 4"	1' 2"	Type IAA (375 lbs.)
18002-272	12' Base	Fiberglass	23.5 lbs	Sure-Set	12' 8"	16' 4"	20' 4"	1' 2"	Type IAA (375 lbs.)
