

Tannin Stain Remover

Tannin Stain Remover is a spotter formulated to remove coffee, tea and other tannin stains, which can also be used as a general debrowner.

Features & Benefits

- Effectively cleans coffee, tea and cola stains quickly
- Use full strength for tough stains or dilute for general browning
- Phosphate-free and rinses freely with water
- Readily available in convenient and cost-effective ready-to-use quarts
- WoolSafe approved

Applications

- For use as a carpet spotter/stain remover

Tannin Stain Remover

Use Instructions

For Treating Spots

- Apply Tannin Stain Remover to spot.
- Agitate with a scraper, working from the outside in to keep the spot from spreading. Allow to work for 5–10 minutes.
- Blot with clean white towels to absorb stain.
- Repeat if necessary. Extract or rinse with water and blot dry.

For General Debrowning

- Dilute 4 oz. Tannin Stain Remover with 1 gal. hot water (500 mL per 16 L) in pump-up sprayer.
- Lightly spray over entire browned area. Allow 15 minutes to work.
- Thoroughly rinse carpet with clean water in extractor.
- Groom carpet with clean carpet rake or stiff synthetic broom and allow to dry.

Note: If being used for the first time, test for colorfastness in an inconspicuous area before use.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
