

OW68QBE OW SERIES

6.5" 3-WAY FULL RANGE ON-WALL LOUDSPEAKER - 4" DEPTH

(4) 1" (25mm) Beryllium Tweeters

(4) 6.5" (165mm) Aluminum Woofers

The On-Wall series of speakers is exactly what you'd expect from James Loudspeaker, high quality audio and durability in a sleek, versatile, on-wall design. The OW68QBE is just one of these multi-use speakers. Boasting a compact design at just 4" this speaker easily integrates into any environment. With the James high excursion proprietary woofers, and an ultra-low distortion beryllium dome quad-array tweeter, this compact speaker offers silky smooth response across a broad range of frequencies from 40kHz all the way down to below 70Hz, with an impressive sensitivity of 96dB. This versatile speaker pairs perfectly with the James SPL6-QBE series to provide a compact surround sound system, delivering crystal clear audio with minimal visual impact. It can also easily be used as a standalone on-wall or bookshelf speaker with or without a companion James subwoofer.

The OW68QBE is constructed entirely of aircraft grade aluminum for strength, sonic performance, and durability, and includes a stainless steel perforated grille to provide years of trouble free use. Blind through holes are incorporated into each speaker for wall mounting or brackets can be purchased separately. For outdoor/marine applications order the OW68QBE-M.

Size	40 h x 8.125 w x 4 d (in) 1016 h x 206 w x 102 d (mm)
Freq Response	70Hz-40kHz±3dB
Impedance	4 ohms
