Welcome to Visual Comfort & Co.'s Generation Lighting Studio Collection.

As the premier resource for designer lighting, we remain strongly connected to interior designers and homeowners who desire a broad range of classic, tasteful, and elegant lighting. With the Generation Lighting Studio Collection, we leverage generations of design experience with techniques and materials to offer designer looks at popular price points.

We believe lighting is a key element in design, one that is often overlooked by architects, builders, and designers. When done well, it has the power to transform an ordinary space into one that is dynamic and dramatic adding depth and dimension.

Since 2018, we have partnered with a new generation of designers who are among the most influential trendsetters of their time. Our partners offer unique designs inspired by beauty from the past, functional needs from the present, and pure imagination. This year, we are proud to add AERIN, Hable, kate spade new york, and Sean Lavin to our roster. These new design partners provide a wonderful complement to our continually growing assortment with Alexa Hampton, Chapman & Myers, ED Ellen DeGeneres, Kelly Wearstler, Lauren Ralph Lauren, and Thomas O'Brien.

It is a privilege to bring their designs to life. The result is lighting that will remain timeless.

VISUAL COMFORT & CO. | GENERATION LIGHTING STUDIO COLLECTION

CHAPMAN & MYERS

A contemporary collaboration, Chapman & Myers combines the best of E.F. Chapman's classically influenced style with Kyle Myers' modern sensibilities. Chapman has produced signature lighting designs for Visual Comfort since 1996, while Myers brings a fresh perspective from his recent tenure at Ralph Lauren Home. Their designs are influenced by architectural themes and present a timeless, refined quality that suits any interior.

SEAN LAVIN

He works closely with Generation Lighting's design partners to bring their concepts to life and has personally designed many of Generation Lighting's well-known signature designs since 2014. Sean's designs draw influence from his travels throughout the world. He believes lighting is just as powerful as other major design elements to create a specific style and mood in a space.
