SuperiorFlexA2

A2 Indoor Outdoor UV Rated Singlemode Pigtails

Specifically designed to for the extreme weather when splicing to your Drop Fiber. The Corning ClearCurve® LBL, Bend Insensitive glass allows for bending as needed inside the NID and a great compliment to our FlexNID lineup. The I/O jacket protects against UV and extreme weather. Precision Group stocks Superior Flex Pigtails SCA-Blunt in 3 and 5ft lengths. We will be happy to make custom lengths and custom connector combinations per your specifications.
