

INK CUPS

Dynarex Ink Cups are high-quality containers designed to hold tattoo pigments and inks. These convenient cups feature a flat stable bottom to help prevent spills and allow for cups to sit directly on work surfaces without the need for an additional support or stand.

- Constructed from high-quality plastic for optimal safety and reliability
- Flat-bottom construction eliminates need for ink-cup stand to minimize clutter
- Features wide rim design to help prevent spills for improved hygiene
- Transparent white cups provide clear view of content to reduce the risk of spills
- Disposable cups designed for single-use for enhanced hygiene and safety
- Not made with natural rubber latex
