CS-C5ADE

Get more flexibility with one product that will work in a variety of AV systems. The CS-C5ADE extends audio signal up to 1,480 feet (450 meters) while supporting analog, optical, and digital coax formats. For an easier installation, power is only required for the transmitter and this system will support PCM 2.0 and Digital 5.1 audio.

- Extends audio up to 1,480 feet (450 meters)
- Supports analog, optical, and digital coax
- Supports PCM 2.0 and Digital 5.1
- Analog stereo RCA, optical, or digital coax to RJ45 connector

Power is only required on a single side for easy installation
