

SOAKER PADS

Dynarex Soaker Pads feature an absorbent center sealed with a polyethylene film to help protect tattoos as they heal. The Pads are designed to be non-adherent, allowing for safe removal without damaging the new tattoo. Tiny perforations on one side allow excess ink to be absorbed.

- Premium-quality pads designed to protect tattoos safely and effectively
- Crafted from highly-absorbent materials for optimal moisture removal
- Tiny perforations on one side provide improved absorption of excess ink
- Non-adhering design allows for safe removal without damage to tattoo or skin
- Sealed on all four sides with polyethylene film to prevent seepage for optimal reliability
