	Further information		:	Collect contaminated fire extinguishing water separately must not be discharged into drains. Fire residues and contaminated fire extinguishing water be disposed of in accordance with local regulations.				
Special protective equipment for firefighters		:	In the event of fire Use personal prot	e, wear self-contained breathing apparatus. ective equipment.				

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Ensure adequate ventilation. Evacuate personnel to safe areas. Material can create slippery conditions.
Environmental precautions	:	Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal. Clean contaminated floors and objects thoroughly while ob- serving environmental regulations.

SECTION 7. HANDLING AND STORAGE

- Advice on safe handling : For personal protection see section 8.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Contains no substances with occupational exposure limit values.

Personal protective equipme		
Respiratory protection	No personal respiratory protective equipment normally required.	}-
Eye protection	No special measures necessary provided product is use correctly. Wear face-shield and protective suit for abnormal proces problems.	
Skin and body protection	No special measures necessary provided product is use correctly.	d
Protective measures	Choose body protection in relation to its type, to the cond tration and amount of dangerous substances, and to the cific work-place. Ensure that eye flushing systems and safety showers are located close to the working place.	spe-
Hygiene measures	Handle in accordance with good industrial hygiene and s practice. Avoid contact with eyes.	afety
