

CRC® Dry Ceramic Lube

Product Description

Best for reducing friction on metal, wood, rubber, plastic, and glass. In clean environments, even a trace of oil or dust can disrupt sensors, halt production or cause inspection failures. CRC® Dry Ceramic Lube delivers clean, friction-free performance with a dry, invisible film that won't attract dirt, dust, fibers, residue or packaging debris. This micro-thin lubricant bonds to metal, rubber and plastic, reducing wear and remaining effective up to 450°F. Keep it moving.

Advantages vs multi-purpose lubricants:

This allows extended maintenance intervals because it delivers long-lasting lubrication that withstands higher temperatures and doesn't attract dust or fibers. It also doesn't migrate or creep like multi-purpose lubricants.

Applications

Hinges, locks, catches, pulleys, conveyors, machine parts, chutes & slides, coin mechanisms, window guides, drawers, rollers, control buttons, switches, electrical wires & harnesses.

Identification

Item Number / Case Number	11003302 / 1003301
Legacy Number	03044
Unit Package Description	16 Ounce Aerosol
Net Fill	10 wt oz
UPC Code	078254030449
Unit Dimensions	7.75H x 2.63W x 2.63D in
Units Per Case	12

Properties

Appearance	Hazy White Suspension in Liquid
Base Type	Boron Nitride
Boiling Point (F/C)	118°F / 48°C
Dielectric Strength	N/A
DOT Proper Shipping Name	Aerosols, Flammable, Limited Quantity
Evaporation Rate	Fast
Flash Point (F/C)	<20°F / <-7°C
Flammability LEL % / UEL %	
Flammability Class - CPSC	Flammable
NSF Category Code	H2
Odor	Alcohol
Plastic Safe	Safe on Most Plastics (test small area)
Propellant	Hydrocarbon
Restricted From Sale In:	
Solubility	Water - Negligible
Spec Gravity Concentrate	0.73
Vapor Density	> 1 (air = 1)
VOC % (Consumer Product def)	94
VOC Category	Dry Film Lubricant
Working Temp (F/C)	-40 to 450°F / -40 to 232.2°C

Sizes

10 wt oz	03044
----------	-------
