

# LATCH MAGNET CHANNEL ASSEMBLIES

## Latch Magnet Channel Assembly

A strong ceramic or rubber magnet is fixed into a zinc-plated steel channel forming a magnetic assembly with the holding power on one large surface.

Makes a great door latch, or use to hold key rings, nameplates, fixtures or other ferrous metal objects. Ideal for use in warehouses, garages, manufacturing facilities and offices.

The large assemblies (CBA360 & CBA400) make excellent tool or sign holders. The rubber magnet assembly (RA403) is impact and vibration resistant.

## Features

- **Zinc Plated**
- **Unique design works for many applications**
- **Includes center or outside holes for mounting**

## Specifications

Dimensions in Inches

Part No.	MSRP	Pounds Pull	Length	Width	Height	Channel Hole
CA403	\$0.44	7	1	.875	.25	.125 Dia.*
CBA275	\$3.27	25	2.7	1.08	.5	.186 Dia. (2)
CBA300	\$2.84	60	3	1.5	.455	.25 L x .198 W (2)
CBA360	\$5.25	25	8	1.063	.5	.28 L x .428 W (2)
CBA400	\$15.75	150	12	1.75	0.61	.25 dia. (2)
RA403 Rubber Magnet	\$0.53	5	1	.875	.22	.125 Dia.*

\* Magnet in the channel has 0.195" Dia. Hole.
