CLEANER SPACES

Turn on more than just the lights.

Turn on peace of mind

with our Featured Solutions from the adorne® and radiant® Collections.

TOUCHLESS SOLUTIONS

Wave Switches

Allow users to turn lights (or small motors) on/off with just a wave of their hand. Features an adjustable sensor (to detect motion 1" to 6" from the device) to fit individual preferences and needs. 15A and 20A available.

Occupancy Sensors

These switches turn lights on automatically when someone enters a room, and off again once the room is empty, for control you don't have to touch or even think about. Vacancy Sensors and Timers also available.

Smart Lighting with Netatmo

Part of the broader Smart Lighting with Netatmo solution, adorne and radiant Smart Switches and Dimmers with Netatmo make it easy to set schedules for automated control as well as connect to Amazon Alexa, Google Home or Apple HomeKit for voice command.

PROTECTED SOLUTIONS

Switches and Dimmers with Microban®

With options spanning a variety of control interfaces and load compatibilities, all adorne® and dimmers (excluding smart devices) and select radiant® devices feature leading Microban® antimicrobial* technology to help guard against odor, stains and deterioration for 99.9% cleaner and more durable devices.

Wall Plates with Microban®

For the perfect finishing touch to any cleaner space, adorne® plastic Wall Plates in select colors (listed below) and radiant® Wall Plates in White feature built-in Microban® antimicrobial* protection for the entire lifetime of the product.

adorne Wall Plates colors with Microban: Bronze, Evergreen, Gloss White, Gloss White-on-White, Graphite, Greige, Magnesium, Matte White, Mystic, Oatmeal, Pale Blue, Peachy, Rosa and Titanium.

No antimicrobial efficacy claims are being made or are valid with respect to products sold in Canada.
