CHICAGO PROTECTIVE APPAREL

PARA-ARAMID BLEND COWBOY-STYLE CHAPS

Radiant Heat and Molten Metal Splash Protection • 555-ACK

FEATURES

- Cowboy-style chaps
- Made from 19 oz./sq. yd. aluminized carbon para-aramid blend
- Natural color webbing strap at waist with Nexus clip closure
- Adjustable waist, from S-XL
- Secures to legs with split leather straps with snap buckle closures (3 on each leg)
- Protects against high radiant heat and molten metal splash
- Part #555-ACK

FABRIC DATA & CERTIFICATIONS

ASTM F955

IRON SPLASH	ALUMINUM SPLASH
NO BURN	NO BURN

EN ISO 11612

C1	C2	C3	**C4**	RADIANT HEAT
D1	**D2**	D3		ALUMINUM SPLASH
E1	E2	**E3**		IRON SPLASH

ABOUT ALUMINIZED CARBON PARA-ARAMID BLEND

Aluminized carbon para-aramid blend combines the strength, flexibility, and heat resistance of carbon para-aramid blend, with the radiant heat protection of aluminized protective fabrics. The base fabric is a blend of para-aramid fiber and a carbon yarn. On its own, para-aramid blend is best known for its strength, excellent resistance to cuts and abrasions, and high contact heat. The carbon core further adds to the fabric's durability and chemical resistance, while also providing more flexibility and softness. Aluminized carbon para-aramid blend displays outstanding performance in tests for the EN ISO 11612 and ASTM F955 certifications. It resists both molten aluminum and iron splash, and achieves the highest classification for radiant heat protection.
