SPECIALTY HAND PROTECTION

The Specialty Vent glove provides working hands with evaporative cooling on those sauna-like workdays with its fully ventilated design. The fully perforated palm combines with a breathable mesh back-of-hand to circulate air throughout the entire glove and keep your hands cool and comfortable while you work. Perforated synthetic leather reinforces high-wear areas of the thumb and index finger for added durability when using hand tools. The low-profile wrist closure creates a seamless fit to the wrist, while the micro-fleece thumb panel serves as a convenient place to wipe the sweat falling from your brow.

FEATURES

- 1 Lightweight mesh eliminates heat build-up.
- 2 Perforated thumb and index finger reinforcement.
- 3 Perforated finger fourchettes.
- 4 Low-profile Thermal Plastic Rubber (TPR) hook and loop closure provides a secure fit to the wrist.
- 5 Micro-fleece sweat wipe.
- 6 Fully perforated palm allows for maximum airflow.

MACHINE
WASHABLE
